

Andy Beshear
GOVERNOR

Expanding Access and Reliability to Clean Drinking Water

- Administration's Better Kentucky plan includes \$500 million for the Cleaner Water Program.
- Funds for the Cleaner Water Program were made available by the federal American Rescue Plan Act.
- Administration worked with Kentucky's General Assembly to develop a collaborative process with local communities to award cleaner water program funds in a fair and transparent manner, delivering critical financial support to priority projects.
- Investments through this program alone will provide water and/or sewer access for 4,255 unserved and 88,115 underserved homes.
- All 120 counties will receive some level of funding for projects.
- Phase II projects consisting of the last \$50 million in the program have just recently been awarded.
