“We are deeply grateful to Gov. Beshear and the esteemed members of the General Assembly for their generous gift of more than \$2,100 from the Kentucky Nonprofit Assistance Fund to our Calloway County unit of The Salvation Army,” said **Major Thomas Loudon**, divisional commander, The Salvation Army of Kentucky & Tennessee. “This invaluable support will enable us to continue our vital mission of serving the community by feeding the hungry, offering emergency financial assistance, supporting youth programs and so much more. With this funding, we are empowered to make a meaningful difference in the lives of those facing adversity in Calloway County. Together, we can bring hope, compassion and transformation to those who need it most. Thank you for your commitment to our cause and for standing alongside us in our pursuit of building a better tomorrow.”

“Receiving this funding for our nonprofit allowed us to continue the work of our organization making downtown a great place to start a business, to live and play, as well as shop with local business owners,” said **Deana Wright**, executive director of Murray Main Street.

“The WATCH, Inc. board of directors, staff and participants would like to thank Gov. Beshear and the administrators of the Team Kentucky Nonprofit Assistance Fund,” said **Executive Director Regina Slaughter**. “Our award in December 2022 came at a time when concerns were growing about our financial status and the ability to continue providing quality services to those we serve. We are extremely grateful to have been a recipient of Team Kentucky funding that enabled us to breathe easier and feel like we were getting back to solid ground after the setbacks we experienced throughout the COVID Public Health Emergency. The funding received enabled us to continue to provide vital services to assist adults with developmental/intellectual disabilities, as well as acquired brain injuries, in becoming an integral part of their community and providing them with opportunities to become more independent and self-sufficient.”
